Job offer: Technical Product Owner (f/m/d)

Berlin

Fulltime

Office/Remote

Open now

About us

.img – itai's machine GmbH is the digital unit of the „Berliner Verlag“ publishing group. With our „journalistic operating system“ (.jOS) we provide a cloud-native publishing platform that serves millions of users by connecting to headless CMSs, processing and enriching content, and distributing it via web and apps. This helps regional newspapers to meet the challenges of the digital age: it facilitates reach, engagement, and monetization of journalistic content and integrates it with analytics and AI services. In addition to the publications of „Berliner Verlag“, we work with other national and regional media companies.

Your role

- You shape the ongoing development of our digital products (mobile/web) and our platform with a focus on features, integrations and user experience
- You take end-to-end responsibility for the entire lifecycle of our digital services, including analysis of technical documentation and APIs
- You manage the integration of partners and are involved in steering our development teams
- You formulate requirements for development in epics, user stories and acceptance criteria, prioritize and detail the backlog together with the product team, and take responsibility for conceptualization, testing and release coordination (e.g., using Jira, Confluence, and GitLab)
- You work in an agile environment, closely integrated with different departments; among other things, you act as an interface between business and technology stakeholders, evaluate ideas and the business impact of decisions to support successful design and implementation

Your Background

- You have a degree in (business) information systems, computer science, natural sciences; or relevant practical experience
- You demonstrate an independent, solution-oriented, and structured way of working and have experience in project management as well as in agile development methods
- You bring strong communication skills and can easily synchronize the expectations of different stakeholders - from senior management to development team members
- You are a team player, hands-on, and take a holistic perspective
- Good command of English; a working understanding of German is very desirable

Our environment

- Contribute to our journey of building the best digital publishing platform in a permanent full-time position, available immediately (or as it fits your planning)
- Modern office with a view in the centre of Berlin (Alexanderplatz), with all the usual amenities (e.g., free coffee and drinks, weekly team events, garage for bicycles)
- Contemporary company culture with a high degree of autonomy and trust, close collaboration within the team, and continuous professional development

What's next?

Please send your application documents, a possible start date, and your expected salary to hr@dotimg.com – we're happy to address any potential questions and inquiries there as well. If all goes well, you'll hear from us within the next few days to schedule an interview.
